FIGHT IS IN PROGRESS

Firing Began At Santiago This Morning

SCHLEY'S OFFICIAL REPORT OF THE FIRST ENGAGEMENT

New York, June 3—Special—A Port An Prince dispatch says a battle began at Santiago shortly before nine this morning.

Madrid, June 3—Special—It is rumored here that the American fleet has forced an entrance into Santiago harbor. The report is not credited.

Cervera's Doom Sealed.

Washington, June 3—Special—There is now no possible chance for Admiral Cervera to liberate himself from the trap into which he ran when he entered the harbor of Santiago. Sampson's and Schley's fleets have now been consolidated in front of the harbor, and have the Spaniards securely penned. It will be certain destruction for Cervera to attempt to escape; it will be equally certain destruction for him to remain. Within forty-eight hours the guns of American and Cuban land forces will be shelling the ships from the heights surrounding the bay, while the American fleet in the distance will be maintaining a strict blockade or forcing an entrance to the harbor, where Cervera can be engaged at short range. His predicament is a serious one, and escape is impossible except by a miracle, and naval authorities do not fear the interposition of miracles to assist the Spaniards.

Expect a Decisive Battle.

Washington, June 3—Special—The administration expects to hear today that the fleets of Schley and Sampson have attacked Cervera's fleet and the shore batteries. The president and cabinet will be disappointed if news does not come today. The president and Secretaries Long and Alger are hopeful that a complete victory by Sampson and Schley will force Spain to sue for peace. The administration does not intend, however, to have peace declared until the United States shall be in possession of Porto Rico.

Await News From Santiago.

Washington, June 3—Special—News of the attack upon Santiago is expected here hourly. It is believed that all preparations are complete. The American commanders are now fully informed of the strength of the city's defenses and of the character of the resistance they may expect from Cervera's fleet. Neither are as formidable as was supposed a week ago, and it is believed that it will be an easy matter to capture the town and destroy or capture the Spanish squadron.

Schley's Official Report.

Washington, June 3—Special—Schley's official report of the fight at Santiago was read at the cabinet meeting this morning. He says he has no doubt that Cervera's fleet is in the harbor, and that his firing was done to develop the enemy's batteries. In that respect it resulted entirely satisfactory. None of our vessels were hit, and no casualties on our side are reported.

Insurgents Repulsed.

London, June 3—Special—A dispatch from Havana says the insurgents have commenced a forward movement against the Spanish outposts at Santiago. A force of five hundred under Garcia attacked fort near Holquin, but the garrison made a determined resistance and mowed down the Cubans at short range. Garcia retired, leaving sixty-eight dead and wounded, exclusive of many that were carried off killed.

Heard Shots at Sea.

Key West, June 3—Special—A man living on Planta Key reports hearing thirty heavy gunshots off Alligator reef last night. He thinks there was a sea battle. There is no confirmation here of the report.

Embarking For Manila.

San Francisco, June 3—Special—Gen. Otis at midnight issued orders directing the First Colorado and Tenth Pennsylvania volunteers to embark on transports preparatory to sailing for Manila.

OFF FOR THE FRONT.

There will also be meetings of the women's organizations, bar and press associations, state officers, legislators and members of constitutional conventions.

DISEMBOWELED BY AN ELEPHANT

FRIGHTFUL TRAGEDY ENACTED AT RACINE THIS MORNING

Joseph Anderson, the Trainer of Nero, Attacked By the Animal—Thrown Against a Fence and Disemboweled By the Beast's Tusks In Presence Of a Crowd.

Racine, Wis., June 3.—[Special]—This morning Wallace Bros.' circus arrived and three large elephants were unloaded at Fourteenth street. Joseph Anderson, the trainer, was leading Nero, when he became ugly and Anderson hooked him. As quick as a flash Nero wound his trunk around his keeper and dashed him against the fence, and then ran his tusks through Anderson. Anderson was disemboweled and terribly mangled. Hundreds of people were around, but none dared to interfere. The elephants trumpeted and added to the terror of the residents. Harry Reed, the animal man, quickly secured control of Nero, and chained him. Anderson's wife was with the circus, and is crazed by her husband's death.

BURNED AT THE STAKE

Negro in Texas Meets a Terrible Fate for Seeking to Murder a White Woman.

Shreveport, La., June 3.—[Special]—A message from Dayline states that William Streak, a negro, was burned at the stake this morning for assaulting and attempting to murder Mrs. S. J. Parrish, white.

ALL TALK ABOUT THE WAR.

Little Business Activity Is Noted By Traveling Men.

Malachi C. Flah, of this city, who travels for one of the largest jewelry houses in this country, returned home last evening after making an extended trip through the west. He reports business as being quiet in his line, and says that war talk is to be heard on all sides in all towns.

Bain is needed in the far west, the lack of which has had a tendency to check business progress to a noticeable extent.

Edwin S. Williams, of this city, who has been acting as door keeper at the House of Representatives at Washington, returned home last evening, accompanied by his wife.

Mr. Williams, during the past few weeks, has been on the sick list with stomach trouble, and for several days his illness was of a serious nature. He reports Washington as being alive on all sides with nothing but war talk, and that it seems to be the leading topic of conversation among all classes.

Censor Loosens Grip on the Wires.

Washington, June 3.—Gen. Greely returned from New York this morning after having made arrangements to remove the censorship on messages from this country to Brazil and Venezuela.

Modern Woodmen Attend a Picnic Rockford, Ill., June 3.—Nearly 30,000 visitors came to Rockford today to attend the annual picnic of the Modern Woodmen of northern Illinois and southern Wisconsin.

SPAIN HAS NO FRIENDS

Her Last Appeal For Intervention Is Unheeded By Europe

AUSTRIA ALONE SHOWS EVIDENCE OF ANY SYMPATHY

London, June 3—Special—There is a significance in the fact that Austria is the only one of the powers to signify a desire to heed Spain's last appeal for intervention to stop the war with the United States. The hint from Vienna that Austria will act is qualified by the announcement that she will do so only in conjunction with other powers. Austria's friendship for Spain is accounted for by the close relationship of the Emperor Francis Joseph and the queen regent of Spain. All the other European powers are unsympathetic, and there is no probability of intervention from any source. Great Britain and Russia are firm friends of the United States and will become close allies if the necessity should arise. They will see that none of the other nations take an active part on Spain's side.

Famine in Havana.

Key West, Fla., June 3—Special—A Cuban who left Havana last week, arriving here in a small schooner, reports the residents of the city on the verge of starvation. Provisions are very scarce and exceedingly high, and none but the rich can afford to buy. Blanco is seizing everything for the use of the troops, and civilians, including women and children, are on short rations. Meat is almost unobtainable, and coarse bread brings thirty to forty cents a pound loaf, and short weight at that. Many are suffering from hunger. It is no uncommon thing to see an aged man battling with a dog for a bone. There has been a marked decrease in the number of dogs in the city of late, and this fact is attributed to the necessities of the poor, who prefer dog meat to no food.

Reported From Madrid.

Madrid, June 3—Special—A dispatch from Havana says three gunboats arrived at Cienfuegos yesterday, escorting some trading vessels. They were met by a number of insurgents who hoisted a flag of truce. The incident confirms the belief that Gomez has suspended hostilities until he learns what the Americans intend to do. It is believed Garcia disagrees with Gomez, and is organizing a great movement to assist the Americans in landing.

Holds a Rod in Pickle.

Washington, June 3—Special—No official notice will be taken at present of the efforts of citizens of France to supply Spain with arms and ammunition, but a note will be made of it and the matter may be the subject of diplomatic controversy after the close of the war. There is much feeling against France among officials, and the conduct of that government in aiding Spain will not be overlooked, even if, as is probable, it shall result in no great injury to the United States.

Will Hold Porto Rico.

Washington, June 3—Special—The administration has, it is said, come to the determination to permanently hold Porto Rico when it shall become ours.

Quiet on the Coast.

Key West, June 3—Special—Word comes from the blockading fleet that all is quiet. Blanco has withdrawn large bodies of troops from the coast line.

Food at Porto Rico.

Madrid, June 3—Special—The captain general of Porto Rico telegraphs that there is plenty of food on the island.

ALL THE NEWS OF THE BADGER STATE

OMINOUS CONDITIONS IN THE OSHKOSH STRIKE.

Non-Union Men Are Threatened and Violence May Ensnare—Judge Dyer Protests Against Taxing Insurance Policies—Change in Wisconsin Central Trustees—Pension List.

Oshkosh, Wis., June 3.—The woodworkers' strike, begun nearly three weeks ago has now, to all appearances, settled into a death struggle between the manufacturers and the men. Every day and especially during the present week, the lines on either side seem to strengthen and stiffen. The "conference" billed for this week have proved abortive for the reason that the manufacturers refused to treat with the men as union men or as representatives of any labor organization. Thus was arbitration balked upon the very threshold. The mass meeting Sunday and Gompers' visit have made the strikers more determined than ever to resist and remain firm. The situation now is pronounced serious and it is said that from now on it will require more than ordinary precautions to avert trouble. The bringing into the city of a few non-union men by the railroad company has stirred up the ugly feelings of large numbers of the strikers and the even temper which they have displayed the past few weeks is becoming very much ruffled. The epithets being applied to the men who are still working in the mills while on their way to and from the factories are becoming more inflammatory and the attitude of the strikers less friendly.

PROTESTS AGAINST A TAX.

Judge Dyer Enters a Protest Against the Tax on Life Insurance.

Washington, June 3.—Senator Spooner yesterday presented in the senate and had published in The Record for information, a letter from Judge Dyer, protesting against the proposed tax of 10 cents on each \$100 of life insurance to be taken out after the revenue bill becomes a law. Judge Dyer says there is no objection to a reasonable tax on insurance policies, and that such tax might be placed as high as was charged during the life of the excessive internal revenues during the civil war, but the rate proposed by the senate amendment, which is five times that proposed by the original house bill, is unjust.

TRUSTEE ABBOT RESIGNS.

He is Succeeded on the Wisconsin Central by John A. Stewart.

Milwaukee, June 3.—Edwin H. Abbot, one of the trustees under the Wisconsin Central mortgages, under which action was brought for the appointment of receivers for the Wisconsin Central lines, has resigned his trusteeship, and Judge Seaman of the United States court yesterday ordered that the case proceed with John A. Stewart, of New York, as sole plaintiff. The resignation of Mr. Abbot is attributed by those directly interested with him to a disagreement with Mr. Stewart.

Pensions for Wisconsin People.

Washington, June 3.—Pensions have been granted persons residing in Wisconsin: Original—John B. Seward, Merrill, \$6; Benjamin Clark, Johnston, \$6. Increase—Lewis S. Daniels, Ontario, \$6 to \$8.

State News in Brief.

The women of Eau Claire have organized to send hospital supplies to the Third Wisconsin regiment and will communicate with Clara Barton for the purpose of organizing a Red Cross society.

Gross earnings of the Chicago, Milwaukee & St. Paul for the fourth week of May aggregated \$805,523 as compared with \$770,946 for the corresponding period of last year, an increase of \$34,577.

The preliminary examination of Charles Hensler, of Beaver Dam, charged with murdering Frank Mahan, at Beaver Dam, May 15 last took place before Judge Charles End at Juneau. The court held that the evidence was insufficient to warrant him in binding Hensler over for trial.

The condition of Paul Grottkau, the Milwaukee labor leader, is steadily growing worse and there is little hope of his recovery. He was slightly delirious yesterday. He has been suffering from an attack of pneumonia. Mr. Grottkau was taken sick at the residence of Dr. G. J. Juorke, Sunday and was removed to St. Joseph's hospital Monday on the advice of his friend, John Doerfler.

GOV. SCOFIELD'S CLAIMS.

The Oshkosh Northwestern, in speaking of the disproof of Hall charges, says: "But these are small matters when we come to consider the affairs of a great state and the welfare of a whole commonwealth. The people generally have been well satisfied with Governor Scofield's administration as a whole. There has been a quite business simplicity about it, uncompromised with jobbery and untainted with any corruption so far as any one knows. To those who have viewed the administration from a more disinterested standpoint it has been prudent, safe, and conservative. No reason now appears on the surface why Governor Scofield should not be entitled to a re-nomination. It is believed that the large mass of republicans in this state, even many who might, under other circumstances, array themselves with the men now opposing his re-nomination, are of the opinion that no good and sufficient reason exists to deny Gov. Scofield the usual courtesy of a re-nomination if he seeks it. The increase of the state tax this year is not such a reason although quoted by some as a point against the present administration. Instead of deceiving the people and carrying over a growing deficiency to shift upon his successor, as has previously been done, Gov. Scofield was honest enough to show up the true condition of the state's finances and to demand, like a business man, that the deficiency be wiped out by an adequate tax, and that the state's indebtedness for once should be balanced. For this he is criticised, when he might have remained indifferent to the situation and the people ignorant of the true state of their affairs. Indeed, unless some better reason can be assigned than has been advanced for the retirement of Gov. Scofield, he is entitled to a re-nomination by all the courtesy and support which is due a fairly good administration."

CANNOT GET "REGULARS."

Washington dispatches say that a third call for volunteers is likely to be issued within the next two weeks. Military authorities are convinced that there is to be a demand for troops which cannot be met with the force available under present conditions. It is evident that the regular army cannot be increased to the desired strength of 62,000, and the war department will consider itself fortunate if the regular army attains a force of 40,000.

Army officers are perplexed as to why men are not willing to enter the regular establishment. The conditions are identical to the volunteer service, and the regulars stand a chance of being better cared for, as the system of distributing supplies to regular troops is more nearly perfect than in the volunteer army.

No regular term of enlistment has been provided, and regulars now entering the army can do so provisionally, with the understanding that they need serve only during the war, and certainly not longer than for two years. Despite the fact that an army must be retained in the Philippines, Porto Rico and Cuba, even after the declaration of peace, those entering the regular army now will not be bound to remain for this service after the war.

During the last week it has become obvious that the military forces for invasion and occupation purposes will have to be much larger than was ordinarily expected. A conservative estimate provides for an army of 125,000 for Cuba, an army of 60,000 for the Philippines, and an army of 30,000 for Porto Rico.

Editor Usher, of The La Crosse Chronicle, says that he will never sup-

port a candidate for any office on a free silver platform, thereby serving notice on the silverites that they need not make any peace overtures to him.

The Wisconsin soldiers have already won a name for themselves and are classed with the best regiment of volunteers. Badger people may well be proud of the national guard, and in the future more attention should be paid to the education of the "citizen soldier," as recent events have demonstrated the value of efficient militia.

The many Janesville friends of Ex-City Attorney Horace McElroy will be glad to hear that he has passed his examination and will be appointed a line officer in the United States navy.

Would it not be appropriate to hire the band to play a few patriotic pieces in the park these pleasant evenings?

BIG BATTLE LOOKED FOR.

Decisive Engagement Expected at Santiago de Cuba.

Cape Haytien, Hayti, June 3.—According to information received here from hitherto accurate sources, a decisive engagement between the United States and Spanish forces is expected to take place soon at Santiago de Cuba.

Kingston, Jamaica, June 3.—Advices received here from Port Antonio today say that Commodore Schley has been notified by the navy department that the battleship Oregon, the first-class armored cruiser New York, another cruiser and two colliers have been sent to Santiago de Cuba.

Rations at Port Tampa.

Washington, June 3.—An evidence of the elaborate preparations that are making for the subsistence of troops mobilized and to be sent to Tampa is obtained from the fact that the commissary's department has now on hand at that place 5,000,000 rations. A ration is one day's food supply for a soldier. On this basis there is subsistence at Tampa for an army of 50,000 men for 100 days and for a smaller army for a greater number of days. The supply is being increased daily in view of the arrival of additional soldiers to be employed in the army of occupation of Cuba and Porto Rico.

Score of Sailors Sick.

Boston, Mass., June 3.—The United States cruiser San Francisco arrived today with ten of her seamen ill. The men were transferred to the naval hospital at Chelsea. This is the second time during the week that the coast patrol cruiser has landed sick men here. The sailors on the San Francisco have been accustomed to warm climates and the rough weather which has swept over the coast during the last ten days has laid twenty-three of them up in the hospital at Chelsea with pneumonia, measles and serious colds.

California Dealers Protest.

Stockton, Cal., June 3.—The reciprocity proclamation of the president which admits French brandies and spirits at \$1.20 a gallon has greatly excited California dealers, who say their industry will be ruined. A protest has been sent to Senator Perkins by a committee of wine-growers.

Claim \$200,000 Was Stolen.

Omaha, Neb., June 3.—The Pacific Express company mystery, in which it is alleged the company has lost \$200,000 through the connivance of some of its officials during the last ten years, is being investigated through the preliminary hearing of W. F. Dechel of Omaha.

Costly Fire in India.

Bombay, June 3.—A conflagration at Peshawar, which was not mastered for twenty-four hours, has destroyed 4,000 houses, doing damage to the amount of about four crores of rupees (about \$20,000,000). This is supposed to be the record fire of India.

BEAUMONT DEFOREST'S.

FOR PORTO RICO INVASION.

Gen. Lee Likely to Be the Commanding Officer.

FORCE IS NOW BEING RAISED.

Time of Departure Only Depends on the Concentration of Troops and the Securing of Transports—Army Will Be Large Enough to Insure Success.

Washington, June 3.—Major General Fitzhugh Lee is organizing an expedition at Jacksonville for the invasion of Porto Rico. The invaders will leave as soon as the necessary troops are concentrated and transports are secured.

Major General Miles is at Tampa making arrangements with Brigadier General Shafter for the embarkation of the troops to be sent to Santiago de Cuba to aid in the operations against the Spanish armada, and Major General Coppinger is en route to Tampa to receive instructions on co-operation from Mobile.

General Merritt is actively at work at San Francisco organizing the second expedition of troops bound to the Philippines, and it is believed from the nature of his preparations that it is intended to land a portion of this expedition at Honolulu and accomplish peaceful occupation of the Hawaiian Islands.

These constitute three striking developments, showing the comprehensive scope of the plans of the war department.

WAIT FOR THE VESUVIUS.

Dynamite Cruiser Needed to Explode Mines in the Harbor.

Kingston, Jamaica, June 3.—A dispatch boat which left Commodore Schley's fleet two days ago brings interesting information that no combined assault will be made on the shore forts and batteries defending the entrance to the harbor of Santiago for the purpose of forcing the entrance and getting at Cervera's fleet until the arrival of the dynamite cruiser Vesuvius. The Vesuvius has been doing scout duty off the western point of Cuba. When she arrives here her dynamite guns will be tested in an effort to explode the rows of mines which are known to have been planted across the harbor's mouth. The dynamite shells the Vesuvius hurls will, upon explosion, it is claimed, explode by concussion any mine within 300 yards of the point at which the dynamite shell strikes. The Vesuvius' guns are, however, capable of effective work only at a distance of about three-quarters of a mile, and hence the reduction of the defenses that might oppose her in her task is necessary. It is this work which the Iowa, Massachusetts and New Orleans began on Tuesday last.

BANK IN DANGER.

Spain's Financial Trouble Is Becoming More Alarming.

London, June 3.—A number of the leading financiers received telegrams from Madrid Thursday, indicating that the financial position is worse than the press dispatches show. It would cause no surprise to hear at any moment that the Bank of Spain had suspended specie payments.

A press dispatch from Madrid today says: "Spain is fast drifting to a forced paper currency. The run upon the Bank of Spain has assumed such proportions that people form in long lines hours before the offices open in Madrid and at the provincial branches. The bank has \$30,000,000 in silver to meet the \$260,000,000 in notes in circulation."

Reported Departure of Troops.

Washington, June 3.—It is impossible to get either confirmation or denial from the officials of the war department of the reported movements of the army. The best information obtainable, although it is not entirely trustworthy, is to the effect that an engineer corps, with a train of siege guns, 700 marines on the Panther, and several regiments of cavalry and infantry are now en route to Santiago, and will soon join the combined fleets of Admiral Sampson and Commodore Schley. This army of about 5,000 men will be used, it is said, in the capture of Santiago, and will afterward occupy and hold it as a base from which future movements of the army may be directed and the relief of the suffering reconcentrados undertaken. The insurgents under Gen. Garcia are expected to render valuable assistance in the capture of Santiago, but it is not believed that any more troops will be dispatched there from Tampa.

France Anxious for Peace.

London, June 3.—It is understood that M. Hanotaux and other ministers regard the present war situation as intolerable. A protracted war, besides disturbing commerce, would necessitate postponing the coming exhibition. It is hoped that the new commercial agreement between France and the United States will smooth the way to French intervention, in which certainly Austria and perhaps Great Britain or other powers will join. Russia, it is asserted, would be willing to undertake the office of mediator to save France the necessity of becoming prominent.

Iowa Regiment for Manila.

SOLDIERS WAITING FOR THEIR WAGES

MANY OF THEM HAVE SPENT
THEIR CASH

Wisconsin Boys Are Now Real Fighters the Enemy Having Put In An Appearance—Col. Schadel's Staff Calls on Gen. Lee—Notes of the Camp.

The Milwaukee Sentinel's Jacksonville correspondent says: "The probability of a pay day is interesting to the boys more than anything else. Since coming here they have spent what money they brought with them and 95 percent of them are now 'dead broke.' The paymaster's clerk has been here supervising the making out of the pay rolls, but the man who pays the cash has not been heard of. The paymasters are at Tampa and may not be here until the Tampa men are paid."

The Janesville soldiers have carried off first honors and are tonight the only thoroughbred soldiers in camp. "Graybacks" put in an appearance today and how to get rid of them is a problem that everyone is trying to solve. The discovery caused no end of comment and a quarantine around the street of Co. A could not be more effective to keep soldiers from other companies away. The trouble was reported to Col. Schadel this afternoon, who remarked that he was glad that one of his companies was now enjoying the real pleasures of army life.

Schadel's Staff Calls On Lee.

Col. Schadel, accompanied by his staff, Lieut. Col. Young, Capt. Varney, Majors Evans, Joachim, Stearns and Lynch and Lieut. Sullivan, Thorpe, Chapman, McMill and Whiting, by special invitation called on Gen. Lee at the Windsor hotel last night. Col. Schadel was introduced to the Virginia by Gen. Arnold and in turn introduced his staff. Gen. Lee then introduced his staff. Later the Wisconsin officers attended Gen. Lee's reception given by the Jacksonville Oubang. Gen. Lee spoke of the Badger men in high terms and said that while he had not made a thorough inspection of them, he had seen enough to convince him that they were excellent soldiers.

Notes of the Camp.

Straw and hay are not used for bedding by the Badger boys. They have made carpets in their tents of Florida moss and pine boughs. This is far more cool and comfortable.

Snakes are numerous in the Wisconsin camp. The other day the boys killed one five feet long.

William Mitchell, after giving a party of his comrades another lunch last night, left the camp. He will go to Washington tomorrow to accept a second lieutenant's commission in the signal service.

Private Bibbe, of Madison, and Hunt, of Beloit, were removed to the division hospital today, suffering from malaria. Their condition is not serious, and in a few days they will be able to report for duty.

A picked baseball nine of the Wisconsin regiment will play the local Seminoles club tomorrow. Warren T. Beckwith, who eloped to Milwaukee with Robert T. Lincoln's daughter last winter, and who is a private in the Fifth Iowa, will pitch against the Wisconsin men.

Considerable excitement was caused by a reckless Iowa sentry shortly after midnight. A belated Iowa private ran the guard tent and the sentry opened fire on him. He missed his man and the bullet whistled through the Third battalion of the Wisconsin camp and landed in a woodpile in the rear of Lieut. Col. Young's tent. The bullet came within close range of some Wisconsin soldiers.

A rule has been established prohibiting bathing in the St. John's river from 10 a. m. to 5 p. m.

Col. Schadel and Maj. Evans made a sanitary inspection of the camp this morning.

The division hospital is now being established. No assignments from Wisconsin have yet been made.

"BARON OMER," one of the best horses in Butler's stable, is dead. It will be remembered that the Baron met with a serious accident in Detroit two years ago, from which, however, he seemed to have recovered and great things were expected of him this coming season. Some weeks ago he was attacked with paralysis of the throat, which made it impossible for him to swallow sufficient food to sustain life. He was a wild, grey horse, and Mr. Kelly was the only trainer who could manage him, but became much attached to Mr. Kelly and very docile under his management. During his last trouble his mute appeals to his trainer were pitiful.

NO BALL LEAGUE AT PRESENT

Efforts to Organize Southern Wisconsin and Northern Illinois Fall

A meeting for the purpose of forming a base ball league to include teams in southern Wisconsin was scheduled to take place at the Y. M. C. A. building at 2 o'clock this afternoon, but at that hour but one outside representative had made his appearance. Mr. Jensen, of Edgerton, was the man present, and he stated that he thought there would be no league formed today. Secretary Kline of the same opinion, but says that one will be formed in the near future which will include all the principal towns in the southern part of the state.

Janesville Soldiers Will Be Plentifully Supplied From Home

An interesting group of young ladies who have husbands and sweethearts among the members of Co. A, now in camp at Jacksonville, congregated yesterday afternoon at the South Jackson street home of Mrs. L. B. Reynolds for the purpose of making bandages. Their afternoon's work resulted in the making of fifty-two substantial bandages which will be forwarded this evening to Jacksonville. These bandages are used by the soldiers to prevent bowel trouble which was so noticeable among the late war during the time of an engagement in the field.

ALL ESCAPED WITHOUT INJURY

No One Hurt in Yesterday's Railway Accident at Madison

The wreck on the St. Paul road yesterday, which caused the delay of the Janesville passenger, was a fortunate affair, and local railroad men say that it is a wonder how so many escaped injury. Conductor James Luft, in charge of the train, said that the only way he could account for the wreck was that the coupling between two of the cars had been broken. Several passengers were in the caboose. The work of clearing away the wreckage and getting the track in shape for use continued all night.

John Arquetto Has Determined to Lead a Better Life in Future

John Arquetto, of Snipe Hill fame, was released from the Rock county jail yesterday, after serving a six months' and two weeks' sentence for receiving goods known to have been stolen from the St. Paul railway company. Arquetto says he intends now to brace up and be somebody, and that he believes he will soon move to Beloit, where he expects to get work in one of the machine shops. Arquetto was a model prisoner, and proved to be a handy man to have around.

RYAN CASE IS EVERLASTING

Prosecution of the Former Saloon Keeper Again Comes Up

In the municipal court today arguments were made for dismissal in the case of Wisconsin vs. James Ryan. The motion for dismissal was made on the grounds that the warrant was filed on the day it was issued, April 20, and the return showed that the defendant was not brought into court to plead till May 13. The motion was overruled by the court, which means that Mr. Ryan will stand trial unless a settlement is made.

The defendant is a former local saloon keeper, and is charged by Edgerton officials with being intoxicated.

and numerous valuable gifts were bestowed in remembrance of the day and its significance. A bountiful repast was served and if all the edibles were as toothsome as the cake and ice cream with which the correspondent was remembered it was a royal feast. Mr. and Mrs. Antisdel's children were all present, the eldest son, A. W. Antisdel coming from his home at Foster, Iowa, accompanied by his son Clark, while the other two sons, Charles and George, and the daughter, Mrs. W. J. Miller, reside here. In addition to these immediate relatives and members of their families, the following relatives and old acquaintances were among the guests: Joseph Newell, of Minneapolis, a brother of Mrs. Antisdel; Elvira Antisdel, of Beloit; Adam Griffin, of Spencer, Iowa; Mr. and Mrs. G. W. Crossman and Mr. and Mrs. O. H. Smith, of Janesville and Mesdames Catherine Griffin, Margaret Tripp, Lizzie Walto and Mr. Lyman H. Miller, of this vicinity. A letter of regret was received from Mr. and Mrs. William W. Washburn, of Morgan Park, Ill., and the following appropriate verses contained therein were read:

"We're growing old together wife,
Our heads are silvery fast,
All race of life will soon be run,
Our cares will soon be past,
For years we've held each other wife,
Through rough and stormy weather,
But soon the clouds will disappear,
For we're growing old together."

"Ah, well do I remember wife,
Those happy days long flown,
When we together crossed the fields,
Where the hay was freshly mown;
Those summer days flew swiftly by,
And winter crossed the heath,
But our love is just as strong today,
Though we're growing old together."

"It seems but yesterday, dear wife,
I stood with manly pride,
In the village church close by our home,
And claimed you for my bride;
And solemn were the vows we made,
To cheer each other day by day,
While growing old together."

"But best of all to me, dear wife,
We know our Savior's love,
His word has cheered us all the way,
And leads to realms above;
We soon shall gain our mansion fair,
Our home beyond the sea,
Where we shall see our Savior's face,
And reign with him forever."

The following program has been arranged for the semi-annual rally of the Baptist Young People's union of the Janesville association, which will be held in the Baptist church here Tuesday evening, June 7: 7:30, song service and prayer; 7:45, symposium, "Our Obligations," introduced by Rev. O. P. Hoster; 8:15, address, "Saved to Serve," Rev. A. O. Kempton; 8:45, consecration service; 9, benediction. A cordial invitation is extended to all to attend this rally. After people would do well to avail themselves of this opportunity to hear for the first time the eloquent and earnest young pastor of the Janesville Baptist church, Arthur O. Kempton. Let us greet him with a crowded house. William Brinkman has just replaced one of his steam separators at the creamery with a new Alpha separator, manufactured by the De Laval company, of New York. It runs like a top and it ought to, for it cost \$525. On account of the closing exercises of Afton school, which will be held Saturday evening, June 11, it was decided by the Baptist Sunday School to postpone the observance of Children's day two weeks. W. J. Miller has sold his fine carriage horse to Mr. Elfield, of Janesville, for a family horse, \$125 being the price paid. Master Oris Griffin, who has been critically ill with inflammation of the bowels, is much better at this writing, and bids fair to recover. Dr. Palmer attended him. Mrs. W. H. Eldredge is visiting relatives at Roscoe, Ill.

Barkers' Corners.

Barkers' Corners, June 3.—The Ladies Aid society will meet with Mrs. Charles Socomekar next week, on Thursday afternoon. Children's day exercises will be held at the U. Mrs. L. L. Thayer is spending a few weeks visiting her father and mother. The outlook for small fruit never was better for the time of year.

Striking Miners Give In.

Cartersville, Ill., June 3.—The resident miners had a meeting Thursday and agreed to return to work to-morrow on the basis of 30 cents per ton or six cents per ton less than the scale adopted at Springfield. This may lead to a complete rearrangement of the scale for this district, but no further trouble is anticipated. The strike is off, the strikers yielding to the power of armed guards.

For Fusion in Nebraska.

Omaha, June 3.—The democratic and free silver republican state committee decided to hold allied conventions at some time and place to be settled after conference with a committee from the populist state committee, which will meet here on June 14. For Urgent War Expenses.

Washington, June 3.—The house, practically without debate, passed the urgency deficiency bill providing for emergency expenses of the army and navy departments incident to the war. It was based upon estimates received recently from the departments, and carries items contemplated in the Philippine expedition and the early movement upon Cuba. Mr. Cannon, from the committee on appropriations, said the war would cost approximately \$600,000,000 provided it should continue one year.

Almost Wiped Out by Fire.

Washington, Ind., June 3.—The town of Bicknell, fifteen miles southwest of here, was almost completely destroyed by fire early Thursday morning. The fire started in Brocksmith's warehouse, and the flames soon spread to the business portion of the place. The town was without fire protection and a call for help was sent to Vincennes, but as that city had no fire engine no aid could be sent. Nearly every business house in Bicknell was destroyed, as well as many residences.

Big Storm in Minnesota.

Brainerd, Minn., June 3.—This city was visited by a terrific storm this afternoon, accompanied by rain and hail, doing thousands of dollars' worth of damage to property. The wind swept through the residence portion of the city, wrecking outbuildings, uprooting shade trees, demolishing glass store fronts and tearing off roofs. The city park is ruined, not one-fifth of the trees remaining standing. Thirteen freight cars standing on the dump were picked up and thrown in a pile together.

Select State Committee.

Peoria, Ill., June 3.—The state prohibition convention, just before its final adjournment, selected the following state executive committee: Oliver W. Stewart, chairman; Alonzo E. Wilson, secretary; and Dan R. Sheen, George W. Gere and Hale Johnson. W. H. Boles, nominee for state treasurer, announced that he would take the stump Aug. 1.

The only discussion arose over that portion of the platform referring to the initiative and referendum, and this entire section was finally stricken out.

At New Orleans there are only three evening attractions. At Milwaukee there will be six days and six nights of endless festivities. These floats are rapidly nearing completion and are said by the center, who has devoted his whole life to this business, to be the finest he has ever yet constructed. May Stop Pelagic Sealing.

Washington, June 3.—The Canadian negotiations recently concluded here led to the signing of a protocol which formally agreed to the exact subjects to be submitted to an international commission. While the protocol makes no preliminary agreement on the several questions, yet it is the general understanding among officials that the Bering Sea question will be adjusted and finally settled by the complete termination of pelagic sealing, which has been a source of controversy for many years.
